

I'm in favour of the Sherbrook bike lanes because I'd rather put my money into the community than into my car!

The Sherbrook/Maryland corridor is a key spoke in the city's AT network, accounting for up to 2000 bicycle trips a day. The proposed bike lanes on Maryland/Sherbrook will be a significant benefit for cyclists, increasing cyclist safety and comfort. But the benefits don't stop there. By encouraging more people to choose their bike over their car, the Sherbrook bike lane will leave more money to be spent on housing, food and recreation within our community.

As my city councillor, I urge you to PLEASE support bike lanes on Sherbrook. On June 8 - please vote AGAINST the motion to remove the section of Sherbrook (between Ellice and Cumberland) from the cycling network .

Councillor Jenny Gerbasi
Council Building
510 Main Street
Winnipeg, Manitoba R3B 1B9
